**DOT HAZMAT REGULATIONS TRAINING (8:00am - 4:30pm)**

Hazardous Materials are defined as those materials and substances that are capable of posing an unreasonable risk to health, safety and property when transported in commerce. If you ship hazardous materials or hazardous waste and need to know how to apply these regulations, this course is for you.

Be sure you are in compliance with the regulations – ***this training is required every three years!***

**Program Outline**

- |  |  |
|--|--|
| I. Awareness of HAZMAT Training Regulation | V. Loading/Unloading                       |
| II. Hazardous Material Identification      | VI. Shipping Papers                        |
| III. Packaging                             | VII. Reporting and Responding to Incidents |
| IV. Placards and Labels                    | VIII. Security Awareness                   |

**Hazardous Waste RCRA Training - 40 CFR 265.16 (8:00am - 12:00pm)**

Be sure you are in compliance with the regulations – ***this is an annual training requirement!***

- Introduction to regulation and review of objectives
- Review of generator status determination
- Review of categories of hazardous site
- Review of site specific hazardous waste
- Review of generator requirements
- Review of contingency plan/emergency procedures
- Review of universal waste rule
- Understanding of the pertinent hazards and associated risks
- Understanding of the potential for disastrous outcome when an emergency involves hazardous materials
- Review of additional emergency response
- Ability to identify the hazards present in an emergency
- Selection and use of Personal Protective Equipment, if required
- Elements of control and containment of releases within the capabilities of the responder

***Companies enrolling multiple employees may be eligible for a discount.***
